Hell On Wheels

Fu Manchu

Advisory - the following lyrics contain explicit language:

Cut yourself off from the pack
Flat out against the freaks
There's nothin' they won't try
Hot head, heavy foot they meetIt's been so many days
And we tried every way
We knew of a master plan
So put the keys in my handIn my hand
In my handAt a time when you would think
All of a sudden it hits the streets
As they're swappin' the big block
Slow-motion, time has stoppedEl Camaro never dies
Look closely you'll know why
Outrun 'em you know we can
So put the keys in my hand in my handIn my hand
In my handHell on wheels is no big deal
Roads burnin' all across the land
Hell on wheels is no big deal
Takin' 'em out of the master plan
Hell on wheels is no big deal
Roads burnin' all across the land
Hell on wheels is no big dealAn idea whose time has come
A land ride for everyone
We've been like this for years on end
We'll let you know where and whenAs he splits the road in two
Under-drive we never knew
Outrun 'em, you know we can
So put the keys in my handIn my hand
In my handHell on wheels is no big deal
Roads burnin' all across the land
Hell on wheels is no big deal
Takin' 'em out of the master plan
Hell on wheels is no big deal

Roads burnin' all across the land
Hell on wheels is no big dealIn my hand
In my hand
In my hand
