

# Fix Me Now

## Garbage

Things don't have to be this way  
Catch me on a better day Bury me above the clouds  
All the way from here  
Take away the things I need  
Take away my fear Hide me in a hollow sound  
Happy evermore  
Everything I had to give  
Gave out long before Fix me now, I wish you would  
Bring me back to life  
Kiss me blind, somebody should  
From hollow into light Crashing silent, broken down  
Falling in to night  
Who gave up and who gave in?  
I'll go without a fight You cut me down or cut me dead  
Cut me in or out  
Kiss me blind time after time  
Take away my doubt Fix me now, I wish you would  
Bring me back to life  
Kiss me blind, somebody should  
From hollow into light Things don't have to be this way  
Catch me on a better day Nowhere, only down from here  
Pick me off the floor  
Take away the things I dream  
One time, one place, one more Fix me now, I wish you would  
Bring me back to life  
Kiss me blind, somebody should  
From hollow into Fix me now, I wish you would  
Bring me back to life  
Kiss me blind, somebody should  
From hollow into light Things don't have to be this way  
Catch me on a better day  
Things don't have to be this way  
Catch me on a better day Things don't have to be this way  
Catch me on a better day  
Things don't have to be this way  
Catch me on a better day
