

# One More Day

## New Edition

Yeah, I can't deny it, on the inside, I'm slowly dyin'  
But with a little love, it'll be alright, just give me one more day  
I promise I'll make it up to you, I never meant to hurt you, baby  
Just trust me, listen I can't deny it  
That you got me cryin', you see  
And I'm, I'm slowly dyin'  
So we can't give up tryin' to be With a little love, it will be all right  
With a little kiss, let me hold you tight  
With a little peace, it could be so fine  
And baby, don't you leave me tonight I just need one more day  
And I won't make you cry, darlin', believe  
And baby, don't say, "Good bye"  
Look in my heart and I won't tell you no lies  
Just one more day and lovin' me will be fine People tell me that true love is blind  
But I'm trying to prove that true love is kind  
All that I want is to make things right  
So won't you be my baby tonight? I just need one more day  
And I won't make you cry, darlin', believe  
And baby, don't say, "Good bye"  
Look in my heart and I won't tell you no lies  
Just one more day and lovin' me will be fine One more day  
One more day  
One more day  
One more day With a little love, it will be all right  
With a little kiss, let me hold you tight  
With a little peace, it could be so fine  
And baby, don't you leave me tonight  
I just need one more day Just one more day  
Just one more day  
Just one more day  
Just one more day One more day  
One more day  
One more day
