

# The Devil Has Work for Idle Hands

## Psycotic Pineapple

I know you've been cheating.  
And it's time to quit.  
I had a talk with the angels  
while the bottom is thick.  
You don't know, you intrude  
you're looking around, there's nothin' to do  
but as soon as I have other plans,  
the devil has work for idle hands!

I look through your window  
and I stood at the door.  
But what you were saying got me begin for more.  
You don't want to lose any action  
cause you're gonna cause a bad reaction.  
The things I do I might not understand.  
The devil has work for idle hands!

Look over your shoulder  
if you're really concerned.  
My temperature's rising  
and you might get burned!  
Nevermind. Go right ahead.  
Do what you're doing.  
You might understand.  
But as soon as I have other plans,  
the devil has work for idle hands!

The devil has work for idle hands!
