Golden

White Arrows

Oh I want you go, ? the night
And you want just step into the life
But it?s golden under the moon

You told me, you know this
And I know this, cause you told me
And I?m so deep and you know it
Cause I know this, cause you told me
I want to stay at the sun rise
You want to go home with every other guy
But it?s golden under the moon

You told me, you know this
And I know this, cause you told me
And I?m so deep and you know it
Cause I know this, cause you told me
It?s golden, it?s golden,
It?s golden, it?s golden.
