# Outta My Head

## Blake Babies

It's my island, get off
It's where I'll live
I'll shake your face off my mind
There'll be no trace of your kindI'll put it outta' my head, it's all I can do
Nothing ever happens, where are you?
I'll try not to think, today's the new day
I'll waste my time some other wayI had a feeling or so I thought
What seems true is often not
I'll take my body and go away
And if I want to, I can stay I can stayI'll put it outta' my head, it's all I can do
Nothing ever happened, who are you?
I'll try not to think, today's a new day
I'll waste my time some other way
