

Hold On to Me

John Denver

We were live on arrival
Safe home at last
No cannon fire dockside
No flags half-mast
We were sold out for silver
And a string of black pearls
On the loneliest island
At the edge of the world
Like destinys children
Souls lost at sea
No room on the lifeboat
You can hold on to me
Now the voyage is over
Were back on dry land
In our eyes are the stories
The rope and the brand
