

# Blood Bond

## Holy Moses

Although we have never been so close  
We feel we are connected to each other  
Dreams, desires and goals  
By defensive was it sowed Our realms will soon collide  
The bond permeates our souls  
Closer than a husband or wife  
Beyond external strife Lies our final destiny  
In a world forlorn in suffering  
There will be soon a gathering  
An epic meeting of the minds It's a blood bond, blood bond  
Through pain and misery  
Blood bond, blood bond  
Look to the east, gaze to the west Blood bond, blood bond  
What do we see? Blood bond  
It's a blood bond  
Through pain and misery Keep an eye on the inside  
Flowing, burning on the outside  
Seething energy, so we realize  
Flowing, burning on outside Flexing the desire of doubt  
Flowing, burning on outside  
Keep an eye on the inside  
Ohh, when we need to meet outside Blood bond, blood bond  
Through pain and misery  
Blood bond, blood bond  
Look to the east, gaze to the west Blood bond, blood bond  
What do we see? Blood bond  
It's a blood bond  
Through pain and misery Although we have never been so close  
We feel we are connected to each other  
Dreams, desires and goals  
Manifesting a world inside Our realms will soon collide  
The bond permeates our souls  
Closer than a husband or wife  
Beyond external strife Lies our final destiny  
In a world forlorn in suffering  
There will soon be a gathering  
An epic meeting of the minds
