

# Days (Remastered LP Version)

## Television

Up on the high, high hills  
With my floating friend  
Watching all the silver  
No one can ever spend  
I feel the touch of her hand  
And all it will erase  
These footprints I followed  
Though they followed my every pace  
Days (3x)  
Be more than all we have  
No matter how much I cross  
I always see the same stream  
I'm standing up on these bridges  
That are standing in a dream
