That's Not Right

Utopia

If you don't feel like dancing tonight, well that's all right
And if you don't feel like holding me tight, well that's all right
'Cause I know that you love me
And you'll show that you love me in your own sweet time
But if you feel like hurtin' me baby, that's not rightIf you don't want to go anywhere, well I don't mind
If you wanna stay home and play with your hair, I still don't mind
'Cause I know that you need me
And you'll know how to please me in your own sweet time
But if you want to leave me, well baby, then I mindI know that I've been guilty of lying
I know I had a whole lot of nerve
But the way that you treat me since I begged your pardon
Is something that I don't deserveAnd if you don't care to give me a date, well that's all right
'Cause I don't care how long I've got to wait, I've got all night
'Cause I know that you want to
But you know that you're goin' to make me lose my mind
And if you care a bit for me baby, that's not rightI know that I've been guilty of lying
I know I had a whole lot of nerve
But the way that you treat me since I begged your pardon
Is something that I don't deserveAnd if you don't feel like dancing tonight, well that's all right
And if you don't feel like holding me tight, well that's all right
'Cause I know that you love me
And you'll show that you love me in your own sweet time
But if you feel like hurtin' me baby, that's not right
