Reconsider Me

Narvel Felts

Hello? Oh?
I see it's fine
You're somebody else's little girl now and will never be mine
But give me a minute, let me get through to you, yeah
I will continue to call you repeatedly till you do

Summer nights you know what we do
We're just keeping it tight, simple as that
When it's dark outside, holding me down for delight
And we could do it all night long
Reconsider me baby, come on!

Girl, you make a terrible, stupid mistake
Hangin' around with that guy ain't right
I'm for real, he's fake
I know that signal, that's a call on the other line
And your boyfriend would sure check that out, but IÃ‚Â´m not that kind

Summer nights you know what we do
We're just keeping it tight, simple as that
When it's dark outside, holding me down for delight
And we could do it all night long, yeah
Reconsider me baby, come on!

Summer nights you know what we do
We're just keeping it tight, simple as that
When it's dark outside, holding me down for delight
And we should do it all night long, yeah
Reconsider me baby, come on!

Summer nights you know what we do
We're just keeping it tight, simple as that
When it's dark outside, holding me down for delight
And we could do it all night long, yeah
Reconsider me baby, come on!
