

Rio Bravo (Remix)

[CKY](#)

I've seen it done like the way the dogs do

I'll think it over, we're standing into

Your phony life but now it's all dry

Can't take it you will see

Not more than others....your phony life

Like I don't hear them,

But I'll tell you something else

When we get to the desert it's out What we left in the past....it tears me up Pulled into a truck stop...my luck is
over

The plan is failing....I think not What we left in the past...it tears me up
