

Time And Time Again

Fragma

You know we've got a little secret
We hold each other close and keep it
All to ourselves Your love is my protection
You take my breath away
I long for your affection everyday Time and time You know we've got a little secret
We hold each other close and keep it
All to ourselves Your love is my protection
You take my breath away
I long for your affection everyday I feel you, see you
Time and time again
Within my heart
I knew it from the start I feel you, see you
Time and time again
Within my heart
We're never gonna part Time and time You know that we should be together
I feel you're in my soul, I'll never
Ever let you go Your love is the solution
You take the blues away
You are the one conclusion everyday I feel you, see you
Time and time again
Within my heart
I knew it from the start I feel you, see you
Time and time again
Within my heart
We're never gonna part Time and time again
Within my heart
Time and time again
Within my heart Time and time
