Remember the days when I was walking and talking  
Doing what I gotta do, doing what we wanna do  
Off into my walked dawn missions, why?  
'Cos the brothers that I knew with the rise drove by Only nice in the days looking down the road  
Seeing beautiful girls with the car load  
Yeah, yeah, yeah they are screaming  
Wish I had a little ride on my own But since I don't there is my sobb story  
My missions will continue as I keep on stalking  
Stamina was dying from the constant walking  
Right before the moment I began to car to my man riddle Who had a some moving on I thought he wouldn't know  
That's my dying where are the others nammy you beat  
And kept driven now in my heart they do a big hole  
'Cos my little, little, little toes started jumping on my end soul It was frigidity burn and then I said wait, I got  
pride  
It's time to get my own ride  
I came up with the scheme and got paid  
I had no other choice but go at knowledge of tray When I got my transport, I got kind of steam g up  
'Cos I got cherry pet further  
Now I'm feeling good 'cos I'm off my feet  
Man the little squalid dogs running up in the street And they saying  
My name is Sharina, my name is Busta  
My name is Tonia, my name is Busta  
My name is Dianna, my is Busta And what do you take me for the little loco push over  
No shame in my game 'cos that's how I got this  
And when I return the playback everybody gets pist  
And now I am the man fielding all the glory  
And when you rise down and gone, just remember that I know you and you know me  
I know you and you know me  
I know you and you know me
