

Endless

Unearth

Shadows of doubt consume you
The light you barely see
Growing wings of sorrow
Have brought you to the winds of plague
Increscent boundaries fade the way
A barren future all to real
And still I try to seek up and find the flame
And still I try, inside
It's endless
A barren future all to real
And still I try
Endless fight, fight, fight, fight
Endless tragedy
Endless lunacy
Chalk up the past as a memory
This battering sickness has surely won
Chalk up the past as a memory
This battering sickness has surely
'Cause all I have wasted
Will this erase me
[Incomprehensible]
[Incomprehensible]
All I have wasted
Will this erase me
All I have wasted
Will this erase me
Time to clean my wounds
[Incomprehensible], can I win this battle inside and out
Can I win this battle inside, outside
Endless fight, fight, fight, fight
Endless tragedy
Endless lunacy, lunacy
