Endless

Unearth

Shadows of doubt consume you
The light you barely see
Growing wings of sorrow

Have brought you to the winds of plagueIncrescent boundaries fade the way

A barren future all to real

And still I try to seek up and find the flame

And still I try, insideIt's endless

A barren future all to real

And still I tryEndless fight, fight, fight, fight

Endless tragedy

Endless lunacyChalk up the past as a memory

This battering sickness has surely won

Chalk up the past as a memory

This battering sickness has surely'Cause all I have wasted

Will this erase me

[Incomprehensible]

[Incomprehensible]All I have wasted

Will this erase me

All I have wasted

Will this erase meTime to clean my wounds
[Incomprehensible], can I win this battle inside and out
Can I win this battle inside, outsideEndless fight, fight, fight, fight
Endless tragedy

Endless lunacy, lunacy
