Nobody's Fool

Poco

Baby, you can see that it's a lie
What he said to you
Made you sad, kind of made me glad
'Cause I got the same from youI ain't your fool, you'd better go away
Don't apologize
No words you'd say wouldn't be okay
I'm through listenin' to your liesYou thought I'd be here, you came back
You were so damn sure of yourself
But just look around, see it ain't so
You'd better start lookin' for helpSo many times you stood and laughed at me
Now I'll take my turn
You've had your way up until today
I guess that it's time you learnedYou thought I'd be here, you came back
You were so damn sure of yourself
But just look around, see it ain't so
You'd better start lookin' for helpBaby, you can see that it's a lie
What he said to you
Made you sad, kind of made me glad
'Cause I got the same from you
'Cause I got the same from you
