

# Kill the Old, Torture Their Young

[Biffy Clyro](#)

this will killopen your head, turn your back away from mesensations, collapse under broken hearts  
when times ?up?, just when you fall asleep  
but knife the heart, to lose my way  
listen hard!, that's just what i thought todaybut knife the heart, to lose my way  
em, not quite sure..., that's just what i thought todaywhere now? i'll get back, i'll get back  
where now? i'll get back, i'll get back  
where now? i'll get back, i'll get back something's wrong with light?  
where now? i'll get back, i'll get back something's wrong with light?random screaming
