

Angels With Dirty Faces

Los Lobos

Broken window smile
Weeds for hair
Strolling 'round the corner
Like a millionaire And the angels with dirty faces
Go it alone With one shoe on
And one shoe lost
Stands a wounded man
Who just laughs it off And the angels with dirty faces
Go it alone
And the angels with dirty faces
Go it alone Lost a brother last night
To the howling wind
Find an empty doorway
It'll be back again And the angels with dirty faces
Go it alone
And the angels with dirty faces
Go it alone
