

Are You Done With Me

Delain

This city drinks and roars
Each word so meaningless
Each word, especially yours, echoes inside my head
Why can't you see
I won't let you get your way
Let you get the best of me
I just need to know
Are you done with me? So are you done with me?
And if you won't you just let me be
I try to understand your reasons for leaving
I cannot believe it
This city drinks and screams
this night will never end
This city made of dreams
My dreams have turned to sand
Why can't you see
I won't let you get your way
Let you get the best of me
I just need to know
Are you done with me? So are you done with me?
And if you won't you just let me be
I try to understand your reasons for leaving
I cannot believe it
So are you done with me?
Now you wanna sleep?
Did you realize that I can't be all you need
Are you done with me?
Now you wanna sleep
If love is gone then I am done again.
So are you done with me?
And if you won't you just let me be
I try to understand your reasons for leaving
I cannot believe it
So are you done with me?
And if you won't you just let me be
I try to understand your reasons for leaving
I cannot believe it
This city drinks and roars
