

# Like Gods of the Sun

## My Dying Bride

I live for you fond caresses  
Songs you sing to me  
gather me up into your arms  
I need no-one just you  
You fill me up with dark thoughts of you  
The Devil talks to me when you're touching me  
My lust is burns deep inside of you  
Together we are as one  
We live our lives in passion  
Full up with thirst I drink your  
light and beauty for always  
Open your arms, hold me closely  
Never let me fall  
Wrapped up in you, comforting me  
I could die here We burn like Gods of the sun  
Paradise pales compared to you  
Never will we be alone  
Our world will change for no-one  
And as our lives are closing  
We lie close and hear nothing
