Going Nowhere

Nasum

Born and raised, the clock is ticking
What will you do with your life?
Confused and scared, trapped in a stalemate
Destined to a life in anxietyLife will stagnate, going nowhere
Time to change, going nowhere
Life will stagnate, going nowhere
Time to change, going nowhereEmployed and married, the clock's still ticking
Is this what you wanted with your life?
Afraid of living, afraid of dying
Hide your face in despairGoing nowhereLife will stagnate, going nowhere
Time to change, going nowhere
Life will stagnate, going nowhere
Time to change, going nowhere
