

# Inhale

## Sirah

Ooh hey You look so good mad  
and then I look mad good,  
You're in a good band  
and I'm a good look,  
You got a quick hand  
but a tougher tongue,  
You'll be a lot of bitches  
but I'm the only one,  
You wanna small talk  
try and catch my eye  
as I've got a hard court  
lotta boys who've tried  
run a tight crew girl  
spend 'em nights loose  
run a rat hang em selves with a slack noose  
but I won't name who,  
in other news:  
I wanna run your world big  
kiss you where the light caught  
get caught up in a world with  
tryna do the girl thing and fall in love tonight,  
whaddya say me and you for life?  
a: every breath I take I inhale this night  
every kiss you gave just makes me feel all right  
b: I wanna let you in, wanna take you home  
wanna make you mine,  
so please don't go and let this night just pass us  
by...(oh when it comes won't you cut my chain  
oh pretty boy won't you change my fate)He got a red cup, but I don't drink none  
He got a dead wish, and I have lived some  
He got a hollow heart, I try and hide inside  
He got a lot a friends, who I seem to like  
We take a long walk, he open car doors  
He got me all shook, and I am not sure  
I let him hold my hand, but he wants more  
I wanna whisper things but I'm tryna stay calm  
got my eyes locked the night is so fun  
wanna grab his neck show him what he's missed  
lean in gentle get lost in his kiss

breathe in our existence, never let it go so(oh when it comes won't you cut my chain  
oh pretty boy won't you change my fate)Oh I could breathe you in, (I'll breathe you in)  
let this night pass us by would be a sin  
he loves me, he loves me not,  
boys on my dot gonna jump you  
I can't figure out but I know you and i will be  
together tonight...a, a, b, a, b, x2  
oh by... let this night just pass us by-ya-ya-yeah  
ohhhh oh woah oh oh  
just let this night just pass us by
