

# When Abyss Winds Return

## Angel Corpse

I am the warfare  
Blasting in from blazing horizons  
I am the abyssic lust  
Tasting blood from the lips of the dying Plague bearer  
World shatterer I am the reaper's blade  
Writhe sadistic merciless  
I am become death  
Caressed by pallid fingers  
I am the cruelty  
That chaos doth evoke  
Bearer of the black standard of war  
When abyss winds return Mountains smashed - crumble down  
Bring to boil a sickly sea  
Dance in the ashes of my enemies  
10,000 years of victory Plague bearer  
World shatterer I am the flames  
That feast upon your fears  
I am the lingering coals  
Spawn of blessed cremation  
I am the malignant goal  
Of our funerary sacrifice  
A Phoenix born of the Fallen Age  
When abyss winds return
