Danger Zone

Sinner

[Sinner, Stoner][Spoken:]
Welcome to the danger zoneRunnin' to a land so dark full of pain
I'm feeling dirty, feelin' hot again
I got the miracles in my hands
Deliver me from evilThe sorcerer is planting his seed
Growing the fools and the victims he needs
His empire's covered by a black sky
The danger zone is in his eyes[Chorus 1:]
Harder than diamonds
Face to face with his evil eyes
Harder than diamonds
I stand against his magic might[Chorus 2:]
He's evil (evil, evil, evil)
So evil (evil, evil, evil)
It's a long way through the dark
Through the danger zone
He's evil (evil, evil, evil)
So evil (evil, evil, evil)
It's a long way through the dark
Danger zoneI was the stranger he needed to kill
I was the danger, I was the thrill
Demons of fire at his command
Flashes of lightning shot from his headIt was one minute before the dawn
Just one minute and his power'd be gone
I started runnin' I felt his pain
The sun came up, I'm gettin' hot again[Chorus 1 & 2]Through the danger zone
