## Diesel Boy

I sneak around to the backdoor / So I can watch her / I love to watch her / And some nights I get lucky / She gets  
undressed / And bares her breasts / My heart races out of time / Through her window she's all mine / And I  
don't even know her goddamn name / But I'm a voyeur just the same / Beneath the bathroom window / I stand  
in flowers / To watch her shower / Sometimes she'll dance for me / A private show / A standing O / Some  
nights I just stand there in awe / As she removes her lacy bra / Well maybe I'm a perverted freak / But you can't  
beat free pornography
