Falling for You

Mortal Love

As the signs grow stronger
Our fate clearer
Take no precautions
Follow your leaderAs our love grows deeper
We fill each other
Still admire the darkness
Let it become largerFall...demise...all
We're...disguised...goneWeep together the rain to come
Feel at heart, the pain is gone
Weep together the rain to come
Feel at heart, the pain is goneAs life drifts further
Our beauty is the core
Always sighing after
Still I crave more
Hope alone grows higher
It struggles to be free
You and me on fire
All that we can beFall...demise...all
We're...disguised...goneWeep together the rain to come
Feel at heart, the pain is gone
Weep together the rain to come
Feel at heart, the pain is goneWeep together the rain to come
Feel at heart, the pain is gone
Weep together the rain to come
Feel at heart, the pain is gone
