

# Falling for You

## Mortal Love

As the signs grow stronger  
Our fate clearer  
Take no precautions  
Follow your leaderAs our love grows deeper  
We fill each other  
Still admire the darkness  
Let it become largerFall...demise...all  
We're...disguised...goneWeep together the rain to come  
Feel at heart, the pain is gone  
Weep together the rain to come  
Feel at heart, the pain is goneAs life drifts further  
Our beauty is the core  
Always sighing after  
Still I crave more  
Hope alone grows higher  
It struggles to be free  
You and me on fire  
All that we can beFall...demise...all  
We're...disguised...goneWeep together the rain to come  
Feel at heart, the pain is gone  
Weep together the rain to come  
Feel at heart, the pain is goneWeep together the rain to come  
Feel at heart, the pain is gone  
Weep together the rain to come  
Feel at heart, the pain is gone
