Denial

Sugababes

Somewhere in the back of my mind
Secretly I know you will find
Me amongst the blushing and glow
Teach me all the things I don't showMystery's a beautiful thing
What a gift a woman can bring
Never let it out just like that
Let him slowly figure it outHow can a flower bloom just over a day?
And at night you gotta let the water drain inI didn't wanna fall in love with you
I didn't wanna know the things I knew
It wasn't til I looked into the mirror
DenialYou were like a power of nature
Telepathic beautiful creature
Understanding all of my weakness
Patient love you'll know when you reach itCynical when hurt was just me
You were never supposed to be
Part of what I would call amazing
Took so long to finally seeHow can a flower bloom just over a day?
And at night you gotta let the water drain inI didn't wanna fall in love with you
I didn't wanna know the things I knew
It wasn't til I looked into the mirror
DenialI didn't wanna fall in love with you
I didn't wanna know the things I knew
It wasn't til I looked into the mirror
DenialI see the way the wind blows like open minds for us
No complicated barriers to hold us backI didn't wanna fall in love with you
I didn't wanna know the things I knew
It wasn't til I looked into the mirror
DenialI didn't wanna fall in love with you
I didn't wanna know the things I knew
It wasn't til I looked into the mirror
DenialI didn't wanna fall in love with you
I didn't wanna know the things I knew
It wasn't til I looked into the mirror
DenialI didn't wanna fall in love with you
I didn't wanna know the things I knew
It wasn't til I looked into the mirror
Denial
