

# Let Go

Dan Black

Giving all that love  
Got me off drugs  
Got me you like whiskey slugs  
When you sigh, so do I  
When I'm not back home

She's alone  
Caught sent to see why I have to run  
If you die, so do I  
Glazier side  
Through the dark eye your name

I let go  
I forgo  
To have you  
On my own  
I let go  
I forgo  
To have you  
On my own

I'm standing in the dust dreaming headlight's beaming  
And the pavement's gleaming oh oh oh  
Something sighs in the sky  
Glowing U-F-O, take me home had to know where the season glow  
If someone cries, so do I

Glazier side  
Through the dark eye your name

I let go  
I forgo  
To have you  
On my own  
I let go  
I forgo  
To have you  
For my own
