True

What the man says is true  
All he's been telling you  
Paper trails align at evening time We flew  
In from the Cote D'Azur  
Wearing our shades and sure  
We were good to go in our Peugeot We die  
Each day and every night  
Follow the swallows' flight  
And we drank champagne like it was rain We tried  
Tried to outlast the day  
Let that lone drummer play  
Hell, I ain't afraid of the choice I made It's true  
All of this is true  
All I've been telling you  
From this rhyme it's the killing time, it's true It's true, it's true, it's true...  
True, true, true... Helped by navigation so we went to the map  
Half the way to China and we never came back Helped by navigation so we went to the map  
Half the way to China and we never came back That night  
Under the vineyard sky  
We kissed and the world cried  
As we hit descend and reached the end So young  
Deep in our hearts we knew  
All I've been telling you is true It's true  
All of this is true  
All I've been telling you  
From this rhyme it's the killing time, it's true  
All of this is true!
