Darwin

Lil Dicky

The chromosome divides
Multiply and thrive
And the strong survive
And the strong survive
And a spaceman fucked an ape
Then cut out on the date
And now it?s much too late
The space ship has escaped
Let it go
We?re lacking something
Good, something good, yeah
Is this all for nothing, oh?
Good, something good, yeah
Boom boom, tick tick
Who skipped the long play?
Boom, tick tick
The chromosome divides
Multiply and thrive
And the strong survive
Yeah, the strong survive
And the grandson of an alien
Wears his snake skin boots
And shows his reptile roots
He shows his reptile roots
We?re lacking something
Something good, something good, yeah
Is this all for nothing? Yeah
Show me the goods
Something good, yeah
Boom boom, tick tick
And who skipped the long play?
Who skipped the record
And who amped what you say?
I want to sing a song that?s my own
I wanna be the DJ
We?re lacking something
Something good, something good, yeah
Is this all for nothing? Yeah
Show me the goods

Something good, yeah
Chromosome divides
Multiply and thrive
And the strong survive
Yeah, the strong survive
Chromosome divides
Multiply and thrive
And the strong survive
And the strong survive
And it?s alright
It?s alright, yeah
It?s a long night
It?s a long night
A long night
It?s long night
It?s a long night
A long night
A long night
It?s a long night
It?s a long night
Alright, alright, alright
When the plane takes off
You'll know it
When the plane takes off
You'll know it
