Grins

Charli XCX

Wish you could see me when Im lying in bed
My eyes are blinded by your stars
My blood is blushing so red
(Oh my God)
I can see you in my head again
I dont suppose you should be dead againWish you could see me when Im lying in bed
My eyes are blinded by your stars
My blood is blushing so red
(Oh my God)
I can see you in my head again
I dont suppose you should be dead againIn the car on [?]
I will scream and shout
Cause I feel like Im in heaven dancing with an angel
Cars burn out
Lost my breath now
Cause I feel like I am falling through the cloudsHope were on the same wavelength
Hope you dont think that Im crazy
Beaches and oceans for my baby
Hurry up and come and save me
I cant quite hear what youre saying
Because my body started shaking
Beaches and oceans, love is quaking
Thats my heart that you were breakingWish you could see me when Im lying in bed
My eyes are blinded by your stars
My blood is blushing so red
(Oh my God)
I can see you in my head again
I dont suppose you should be dead againWish you could see me when Im lying in bed
My eyes are blinded by your stars
My blood is blushing so red
(Oh my God)
I can see you in my head again
I dont suppose you should be dead againIn the car on [?]
I will scream and shout
Cause I feel like Im in heaven dancing with an angel
Cars burn out
Lost my breath now
Cause I feel like I am falling through the cloudsHope were on the same wavelength
Hope you dont think that Im crazy

Beaches and oceans for my baby
Hurry up and come and save me
I cant quite hear what youre saying
Because my body started shaking
Beaches and oceans, love is quaking
Thats my heart that you were breaking
