

# Rocket Ship

## San Cisco

I fold a piece of paper  
And I put it in my pocket  
Cause' I'm about to board  
The world's first rocket  
And I need to remember  
Where i came from And I leave it for as long as i can  
Until it falls and breaks  
And it crumbles like sand  
And we all go like Ohh la la la oh la la la la  
Oh la la la oh la la la la Ten nine eight seven six five four three two one  
The rocket ship went off like a gun  
It was nice knowing you my good friend  
But i might never ever ever ever see you again  
Eh eh eh  
Know we all going oh la la la oh la la la la Wriggle me down to the ground and maybe one day well I'll be found  
Sing it loud and the air is proud and  
Maybe one day we will all be found  
Singing oh la la la oh la la la la  
Oh la la la oh la la la la  
Oh la la la oh la la la la
