

In The Air (Prod. By Ritz Reynolds)

Mac Miller

[Hook]

I dont think they know it yet, but I do, I do

And if you f-ckin with it then you my dude, my dude

We always down to dap or give a pound to those who got their thumbs in the air[Mac Miller - Verse 1]

Hey, everything good right now

Little bit of money make your boy ride down

Thinking I could probably figure out my style on a stage

Looking at a big high crowd

They go insane when I run out the stage

Cause we dont give a f-ck, dont need to act our age, hey

When Im old Ima spend my days, layin with my girl on the beach in the shade

Have every single thing I can name

Thank god everyday I dont sleep in the rain

Blessed with some success so Ima try my best to

Live my life right, when I see God hell be impressed cause

Ive been on my grind, thinking Ill be fine if I take my time

Working so hard I might break my spine

So all yall goin see this face of mine

Theres different ways to shine

Ima find my own, know when I disappear

Ima find my way back home cause[Hook]

I dont think they know it yet, but I do, I do

And if you f-ckin with it then you my dude, my dude

We always down to dap or give a pound to those who got their thumbs in the air[Mac Miller - Verse 2]

Days go by and I think that I

Maybe going crazy, maybe loose my mind

Looking at a constellation

Me and God have a conversation

Got a nine sorry about the lingo

Just kick it in the cut playing bingo

I be all over the beat like Ringo

Look sweet honey bee gonna sting though

Im here, wanna do my thang

You can roll no matter who you bring

Like your wifey wanna loose that ring

I dont pay her no mind, I just want, I just want, I just want the paper

Bring the games a little more flavor

Say wat up, take a flick with a hater

Throwing a deuce like see you later,

Thats funny, all I really want is a little cash money
Then life is gonna be so sweet, nah it aint a hotel, nah it aint a hotel,
Im next, shhhh, dont tell
