

Wallflower

Splender

Two more days is all you ever wanted
Paint your face it's time to be social
Standing on the edge of your feeling so special
Looking at the center of a downward circle It's a side we offend, it's the work of a fool
It's the sign of a freak, uncool Nobody understands wallflower, nobody gives a damn wallflower
Cannot get into you look what you made me do, down, I'm so down
If you kiss the dirt well then you'd see my reflection Look around and I start to laugh
No more need for photographs
Was there something you meant to say
As I walked away? It's the way we collide, it's the way we connect
It's the way we confuse, so rude Nobody understands wallflower, nobody gives a damn wallflower
Cannot get into you look what you made me do, down, I'm so down
If you kiss the dirt well then you'd see my reflection Nobody understands wallflower, nobody gives a damn
wallflower
Cannot get into you look what you made me do down, I'm so down
If you kiss the dirt well then you'd see my No one will want from you, haven't you got a clue?
Cannot get over you look what you put me through Down, I'm so down
If you kiss the dirt well then you'd see my reflection
Down, I'm so down
If you kiss the dirt well then you'd see my intentions
Down, I'm so down
If you kiss the dirt well then you'd see my aggressions
Down, I'm so down
If you kiss the dirt well then you'd see my pretensions
