

# Little by Little

Clare Bowen

It's a great big world out there  
If we don't stop and stare  
Moments pass us by  
A chance to say hello  
A chance to say I know  
A chance to say goodbye  
Raise your head up  
Don't you let up  
Keep on keepin' on Little by little by little  
Little by little by little  
Little by little by little  
ooh ooh  
Little by little by little  
Little by little by little  
Little by little by little  
ooh ooh Baby take a breath  
Take one more baby step  
You don't have to run  
Take that leap of faith  
You got what it takes  
We've only just begun  
And we win one by one  
Raise your head up  
Don't you let up  
Keep on keepin' on Little by little by little  
Little by little by little  
Little by little by little  
ooh ooh  
Little by little by little  
Little by little by little  
Little by little by little  
ooh ooh One more minute  
Just stay in it  
And breath  
Step by step  
Left right left  
Believe Little by little by little  
Little by little by little  
Little by little by little

ooh ooh Little by little by little  
Little by little by little  
Little by little by little  
ooh ooh One more minute  
Just stay in it  
And breath  
Step by step  
Breath by breath  
Believe Little by little by little  
Little by little by little  
Little by little by little  
ooh ooh Little by little by little  
Little by little by little  
Little by little by little  
ooh ooh
