

Phantasm (feat. Laura Darlington)

Flying Lotus

you made it very clear
clear as a ghost
completely disappear
fix it in postand protect the fantasies?
no matter the cost?
increase the transparency
total data lossthe memory grows dim
of wanting sensation
you tried a phantom limb
hallucinationi know that you are there
i see you on my sleeve
an internal verse
ghost in the machineall that we feel
is virtually real
what will survive...
in real life, in real life?
