

# Love Crazy

## Tyrants in Therapy

I was walkin' down the street with my guitar, (oh)  
You pulled up next to me in your fancy car  
She said take me to the places where your horses run free  
Baby if you know how to ride you can ride me  
Said if you wanna rock I got a condom in my pocket  
She said baby you're the key so come and unlock it  
It's just that easy, to please me  
So let's make it baby, you and me baby, we can do it alright  
If love is crazy let's go crazy we can do it alright  
We can do it alright  
Believe me girl

We barely made it down the street we didn't get far  
It doesn't matter where I go there you are  
Said she's a sexy thriller dressed in black and red  
Girl's so f\*\*\*in' cool even wears her shades to bed  
It's just that easy, to please me  
So let's make it baby, you and me baby, we can do it alright  
If love is crazy let's go crazy we can do it alright  
We can do it alright

Believe me girl

Oh my goodness oh my gracious, take me home down to the basement  
On the floor on the pavement wake the neighbors let's make a statement  
Let 'em watch let 'em stare  
Put your legs up in the air smack that ass  
And pull your hair take a picture man I don't care  
You play checkers I'll play chess then we'll see  
Who moves the best you're the teacher  
And I'm the pet shut up let's...sex  
We can do it alright  
Believe me girl

So let's make it baby, you and me baby, we can do it alright  
If love is crazy let's go crazy we can do it alright  
So let's make it baby, you and me baby, we can do it alright  
If love is crazy let's go crazy we can do it alright  
We can do it alright  
Believe me girl  
We can do it alright  
We can do it alright
