

# Black Wings

[inc.](#)

if every life deserves to die  
in the dirt but covered in white  
but the dirt dont apologize  
like her legs when they open wide  
like her legs when they open wide  
it was black it was never white  
it was black it was never whiteblack wings on her back for life  
to her skin with the ink and a knife  
black wings on her back for life  
cause if the pain cant make it rightwe were never blind to it  
we were never blind to it  
we were never blind to it  
we were never blind to itevery dog deserves a fight  
but the mouth never got a bite  
the birth didnt make a life  
to the birth i apologize  
to dirt i apologize  
it was black it was never white  
it was black it was never whiteblack wings on her back for life  
to her skin with the ink and a knife  
black wings on her back for life  
cause if the pain cant make it rightbut it was never to be said  
we were never blind to it  
it was never to be said  
we were never blind to it  
we were never blind to it
