One Day

River City High

You tell me you don feel like you remember
You say you look like May but you feel like December
Why don we make plans for August again
Why do we always change with the weather(chorus)
Why don we just stand back and
Why don we just let go
Why don we just pretend that one day
Wee not that oldNow you can keep track of all the lessons youe learned
And the thing you miss the most is all the time youe burned
Why don we make plans for August again
Why do we always change with the weather(Chorus)Youe not too old
It not too late
But youe not getting any younger
Playing around with fate
Let find that time we burned
Let forget those lesson learned
Everything gotta change
But why can we all change together
Youe not too old
It not too late
But youe not getting any younger
Playing around with fate
(chorus)
