

Belle

Yowler

Little one
Summer song
Summer sky
Summer (?)
Don't be caught
In the dark
With the one who is
Sinking slowly
Taking you slowly
Little love
Here is warm
With the magic of the done
Don't be taken
Don't be taken
Away
Away
Away
Away
We need you to stay
Some sudden matter in the back of your card
One little sighting of a star
Far
But close in the shadow of the garden at night
I want to come with you, I will try
Try
Try
Perfect light
On my bed
Won't you put me down instead
Stay your reign
It's coming soon
Won't be long
'Til you're gone
Gone
The sun's sudden august
In the heart of your card
One little calling of the star
Far
We're close in the shadow of the garden at night

I want to come with you

I will try

Try
