Haunted (feat. Josh Roa)

GHOSTS

Time of despair dark memories
you on my mind make it hard to stay
focused cause you're hunting me
im loosing touch with reality

Your soul so blue i remember you
with lips so red you got in my head
how can i be feeling free
when your shadows keep surrounding me

So many regrets, no remedy
made you become your own worst enemy trying hard to live your dream
you forgot who you were meant to be
