Can you make me feel better?
Tell me what to do
Tell me, tell me i wanna feel like you
Are you happy
You look so satisfied
Show me show me show me
I wanna know what it s like
Ahh ahh ahh
.you can .
Like everything so civilized
Chorus:
Make me up and make me over
Make me higher, make me sober
Tell me tell me tell me what to do
Make me up and make me over
Make me higher, make me sober
Tell me tell me tell me i wanna feel like you
I don t understand a word just say And maybe maybe maybe I m just crazy
Don t make me all a trouble that i need
Ahh ah, ahh ahh
Message can you .
Make everything so secret loss
Chorus:
Make me up and make me over
Make me higher, make me sober
Tell me tell me tell me what to do
Make me up and make me over
Make me higher, make me sober
Tell me tell me tell me i wanna feel like you
Up the floor boys lady there
Struck the walls and face the chair
Touch my skin is so disguised
Close my lips shut my eyes
[Chorus:]
