

Don't Be Afraid to Sing

Stars

Your quiet eyes
Your mouth that never tells lies
You've got one hour
It's time you told your story
Eighteen alone
In love with the antiphony
And too afraid
You're too afraid to fall for anything
And too afraid
Much too afraid to sing
I won't pretend that I can see the end
But it's far away, it's in the distance
We'll find a place
There isn't room for two of us
The minutes drag
Then there's a world between us
And I'm too afraid
Much too afraid to fall for anything
And I'm too afraid
Much too afraid to sing, to sing
We all come to an end
And we all end together
We all come to an end
And we all end together
We all come to an end
And we all end together
And we all end together
We all end together
We all end together
We all end together
