Blue Electric Roses

Travis Garland

Girl just one look in your salt water blue eyes
That's all it took, for me.
You got e this the wrong way but you should fuck, with me.
And I just want you closer
Every single time you be looking at me that way
And I just can't get over
Its written in the clouds and on your faceThen my sky falls the moment that I saw you standing there
Then time froze the color in a field of gray
Your beauty hangs alone
There's nothing in the world like blue electric roses,girl.
Blue electric roses girl.Look, girl, girl, girl, girl girl, girl
Look, girl, girl, girl, girl girl, girl
Look, girl, girl, girl, girl girl, girl
Blue electric roses girl
blue electric rosesDon't go nowhere
You ain't got no place to go
Girl stay right here with me
I dont play fair when it comes to loving you
I ain't gon' share, baby
And I just want you closer
every single time you be looking at me that way
And I can't get over
Its written in your clouds and on your faceThen my sky falls the moment that I saw you standing there
Then time froze the color in a field of gray
Your beauty hangs alone
There's nothing in the world like blue electric roses,girl.
Blue electric roses girl.You know Im into girl and crazy for you
And all your blue electric roses cant be rinsed when the ocean will get to you
Love at first I saw you, I told myself Ill never let you go, let you goThen my sky falls the moment that I saw you standing there
Then time froze the color in a field of gray
Your beauty hangs alone
There's nothing in the world like blue electric roses,girl.
Blue electric roses girl.Look, girl, girl, girl, girl girl, girl
You could be
Look girl, girl, girl, girl, girl,
You could be that one thing for me
Look girl, girl, girl, girl, girl,
Girl I just wanna stay

Blue electric roses girl
Blue electric roses girl
Yeah, yeah
