

Smile

Robert Randolph & The Family Band

Sitting here thinking about the time we shared
The love you gave so freely lets me know you care
In spite of all the things we've been through I know it was only a test
And now I wish that you were here with me to cure my loneliness And I'll just smile when I think of all the good
times
I just smile when I think about all the joy you bring
When I think about how you touched my life and how you set my spirit free
I'll just smile when I think about all you've done for me I never knew before we met what love actually could do
for me
And when we were together I saw how strong I could be
With all the space between us I still feel you are here
And all the love that's in my heart it keeps you near And I'll just smile when I think of all the good times
And I'll just smile when I think about all the joy you bring
When I think about how you touched my life
And how you set my spirit free When I think about how you touched my life
How you set my spirit free
And I'll just smile, yeah, I'll smile
In the sun and rain, in sickness and pain I'll smile because you were right there with me
No more lonely days I'll smile, I'll smile
Yes, I smile
