

# Baby It Works For Me

## No Secrets

Something went wrong now she's gone  
Baby, don't stress it, baby, don't second guess it  
Don't look down turn yourself around  
Baby, I'm waiting with something, I've been saving  
To let you go she must have been a fool  
'Cause no one's ever made me feel the way you do  
Whenever we touch, I can barely breathe  
I'm telling you honestly, baby it works for me  
Heaven knows why she set you free  
Look in my eyes you'll see, baby it works for me  
Your love it works for me  
I know what you need to believe in me  
I'm taking it slowly giving you time to know me  
'Cause no one's kiss could ever get me like this  
Making me crazy that's what you do my, baby

To let you go she must have been insane  
'Cause no one's ever, ever made me feel this way  
Whenever we touch, I can barely breathe  
I'm telling you honestly, baby it works for me  
Heaven knows why she set you free  
Look in my eyes you'll see, baby it works for me  
Your love it works for me  
Take it take your sweet time  
Stay in these arms of mine  
You can trust in the two of us  
So hard to control myself  
When I want you and no one else  
You're everything, everything to me
