

Near Dark

Burial

Going out, I'm just I envied you
I envied you
Going out, I'm just
I'm just not in it, at all
People are still there I can't take my eyes off you
I can't take my eyes off you
I can't take my eyes off you
I can't take my eyes off you I can't take my eyes off you
I can't take my eyes off you
I can't take my eyes off you
I can't take my eyes off you
I can't take my eyes off you I envied you
I envied you I envied you
I envied you
I can't take my eyes off you I envied you
I envied you
I can't take my eyes off you
I can't take my eyes off you
I can't take my eyes off you
I can't take my eyes off you I can't take my eyes off you
I can't take my eyes off you
I can't take my eyes off you
I can't take my eyes off you
I can't take my eyes off you I envied you, girl
I envied you, girl I envied you, girl
I envied you, girl
I can't take my eyes off you I envied you, girl
I envied you, girl I envied you, girl
I envied you, girl I can't take my eyes off
