

Where Do They Make Balloons?

They Might Be Giants

Marmalade's from Scotland
Rugs from Pakistan
Mexico has jumping beans
And cars are from Japan
Clowns are from the circus
Barking comes from dogs
Eggs come from a chicken
And log cabins come from logs
But where
Where do they make balloons?
But where
Where do they make balloons?
New York has tall buildings
New Jersey has its malls
Pisa has a leaning tower
Will it ever fall?
The ocean has the fishes
London has a tower
In Holland they have windmills
Lots of banks and pretty flowers
But where
Where do they make balloons?
But where
Where do they make balloons?
Balloons
Balloons
Balloons
Balloons
Spaghetti is from China
But Italians make it best
Ants can make an anthill
And monkeys make a nest
Hungary isn't hungry
And French fries aren't from France
Turkeys aren't from Turkey
They can't fly but they can dance
But where
Where do they make balloons?
But where

Where do they make balloons?

But where

Where do they make balloons?

But where

Where do they make balloons?
